LUTHERLYN GOES GREEN!

Three simple steps to help us reduce the amount of garbage we create!

- ❑ Bring a reusable water container. We have been given two water coolers to help refill water bottles.
- ❑ Hooks are installed in the lodge bathrooms for personal towels. This will reduce bags of paper waste.
- ❑ Utilize the services of our camp cook. He is experienced in estimating food portions, and this will reduce the amount of food waste that we have to take to the landfill

Thank you for helping reduce Waste and garbage!

WE ARE CREATING A HISTORY BOOK FOR LUTHERLYN, 1965-2015!

Share copies of a few photos of your time at Lutherlyn.

The history book will be created as a private on line publication. Everyone who registers will be sent a private link to the book and can then have a walk down memory lane. Copies can be ordered through the on-line company. Help us create an interesting book. Make sure your memories and photos are part of the publication. We will collect photos prior to and on the anniversary weekend.
